USC ASCE encourages Civil and Environmental Engineering students to make connections through participating in professional networking events and engineering design competitions. Throughout the school year, we strive to offer our members opportunities to connect with people working in the industry in order to gain an understanding of the professional experience. We also assemble design teams to compete at the Pacific Southwest Conference (PSWC) in competitions such as Concrete Canoe, and Environmental Design.
We need your help in order to fulfil our mission. To do so, we’re looking for financial sponsorship and material donations.

As a sponsor, your financial donation provides us with the necessary resources to construct a winning entry for the design team competitions and gives our members the opportunity to apply their classroom skills in a real-world environment. It also gives your company the opportunity to connect with students who are actively engaging with their curriculum and working towards becoming well-rounded professionals.

Material donations are greatly beneficial to our design teams’ endeavours, allowing them to pursue more ambitious designs. Materials that we could use include, but are not limited to: Cold-rolled Steel, Polystyrene foam, Portland Cement, etc.

Any support you can provide is greatly appreciated. Your contributions will help us make lasting connections to your company and add to our resource base for students. If you are interested in supporting our efforts, please contact us!

Donations can be addressed to “USC ASCE” and sent to:
Sonny Astani Department of Civil and Environmental Engineering
Viterbi School of Engineering
University of Southern California
3620 S Vermont Avenue, KAP 213
Los Angeles, CA 90089

USC ASCE is registered as a non-profit, charitable organization under Section 501(c)(3) of the U.S. Internal Revenue Code, meaning all donations to USC ASCE are fully tax-deductible (depending on your individual tax situation)
